About me:

I have a diverse skillset, with experience in both technical and administrative roles. I adaptable and able to work with different programming languages and tools. To work with ethics is the most important for me. Considering myself, someone creative and analytic, I like to solve problems from another perspective. I have experience working in different industries, including web development, marketing, design, accounting, and administration working with different tools. I have experience working independently and in teams.

Last Experience:

Creative Manager - Apr 2017 - Ago 2020
Tree House, Publish and Design.
I was dedicated to creating the client's brand. And the service covered from the creation and maintenance of the web pages, use HTML5, CSS, Wordpress, and No-Code tools, analysis in Google Analytics. And Design Tools in Adobe.

Accounting assistant - Sept 2020 - Dec 2022
Impulsora Pedagógica Mexicana.
My daily tools was Excel, MySQL, and Python. to manage financial data and streamline processes. I was able to use it to automate repetitive tasks and create custom scripts to improve efficiency.

Tech Stack:

Set:
- HTML   - CSS   - JavaScript
- Python   - R   - SQL

Framework:
- Big Data   - API Rest
- Machine Learning   - Web Scraping
- Deep Learning   - KPI Meditions
- Data Analysis   - Business Intelligence

Data:

*Data ETL:
- Python   - Numpy   - R
- Pandas   - Pyspark   - SQL
- Microsoft Excel   - Hadoop

*Data Viz:
- Matplotlib   -Seaborn
- R-studio   -Tableau
- PowerBI

*Data Base:
- NoSQL   - SQL

*Cloud:
- Azure   - AWS
- Heroku   - Google Cloud

*Machine & Deep Learning:
- Scikit-Learn   - PyTorch
- Tensorflow   - Meta AI
- Pylearn2

DevOps:
- Docker   - Kubernetes

Testing:
- Selenium

Backend: | Fronted:
- Django   - Flask   - FastApi   - Angular

Misc:
- Bash   - Markdown   - Linux

Editors:
- Vim   - Vs Code   -Kaggle
- Google Colab   - DeepNote

Education & Certificates:

Degree: International Relations And Economy
Data Scientist With Python | Google Data Analyst
Machine Learning Engineer | Python Backend
Lang: English/ Spanish/ Portuguese
